Price: \$72.95

Short Description

The National Association of EMTs has partnered with Jones & Bartlett Learning and the American Geriatrics Society to develop the second edition **GEMS** course.

Description

The National Association of EMTs has partnered with Jones & Bartlett Learning and the American Geriatrics Society to develop the second edition **GEMS** course. A team of experienced EMS educators and clinicians serving as members of NAEMT's GEMS Committee has designed a course that prepares EMS practitioners to respond to the unique challenges and needs of an older patient. The course aims to empower practitioners with geriatric specific training to help them improve the medical outcomes and quality of life for these patients.

Geriatric Education for Emergency Medical Services (GEMS), Second Edition builds off the previous edition and includes expanded content that will cover new areas addressed in the *National EMS Education Standards*, including mobile integrated healthcare and disasters.

The GEMS course is an innovative, comprehensive, and highly interactive 1-day course for both BLS and ALS providers with:

- Case-based lectures
- Live action video
- Hands-on skill stations
- Small group scenarios

New to the *Second Edition*:

- The introduction of a one-day, 8 hour "core" provider course
- More geriatric specific information included in the lectures

New lecture on Disasters and the associated needs of older patients

New lecture on Mobile Integrated Healthcare-Community Paramedicine and the opportunity to make a difference with older patients

New videos covering Elder Abuse, MIH-CP and Trauma

Contents

Chapter 1 Advanced Medical Life Support Assessment for the Medical Patient

Chapter 2 Respiratory Disorders

Chapter 3 Cardiovascular Disorders

Chapter 4 Shock
